CAPABILITIES STATEMENT

NOV 2026 / 01

COMPANY OVERVIEW

Pineform Labs is an independent web-development and venture studio in the Chicago area. We design websites and build custom software for organizations while developing original products and businesses.

CORE CAPABILITIES

01 Website design and modernization

02 Custom web applications and portals

03 Dashboards, reporting and data interfaces

04 Workflow automation and integrations

05 Technical prototypes and applied research

06 Scoped maintenance and iteration

REPRESENTATIVE WORK

ORIGINAL PROJECTS

Pineform Follow-Up

PUBLIC DEMO

Website inquiry intake, dashboard visibility and follow-up status tracking.

ContractOS

PRIVATE PROTOTYPE

Application concept for contracting opportunity, bid and delivery workflows.

Richmont

DEVELOPING VENTURE

Golf and lifestyle brand identity, apparel direction and ecommerce storefront.

PROJECT DELIVERY APPROACH

01

SCOPE

Clarify needs and acceptance criteria.

02

DESIGN

Define workflows and technical direction.

03

BUILD

Implement and review iteratively.

04

VERIFY

Test, document and hand off.

PUBLIC-SECTOR PROJECTS

We review defined website, software, data and workflow requirements for agencies and prime contractors. Eligibility, accessibility and security requirements are assessed per opportunity.
